Subsidizing my My opposition Billy Ingram

Judge Azrack. July 26,2019 case No.2:17-cv-05556 (JMA)(SIL)

I would like to submit and subsidize my opposition to the motion to dismiss and request and proceed to Trial..As I am pro'formed Mr. Benjamin stockman On July 23rd 2019. By phone but didn't get any response In subsidizing my opposition.My vision has been poor and I just had catract surgery recently on June 18th 2019 in the eight eye which is my only supporting eye. My reasons for the opposition to motion to dismiss and proceed to trial .I would like to explain my case in person as I believe I have been misunderstood in my written complaints. On the basis of my termination.

,Page.2.

I am filing a claim of workforce discrimination based on the premise that because the company was aware of your preexisting health condition, and because, even with documented satisfactory performance as a part-time employee of over a decade, the company, on several occasions, denied My application for full time employment; therefore, upon My recent designation as a full time employee, certain company stakeholders displayed documented prejudicial treatment leading to wrongful termination as determined by a court of law, and since the company's actions have led to a loss of income and emotional damages, I am requesting apt recompense. As well as my job back and paid back retro pay as a full-time employee for the date of termination. April 13;2016

over the phone which is illegal Please allow me to proceed to trial for a fair hearing.
Sincerely, Mr. Billy Ingram
